121459-1 Client gateway migration coordinator

Lux-Advisory is a company specialized in project management and business analysis. Our consultants take part in European or International projects. In the context of the migration of the client gateway of one of our customers, an international bank, from an existing FTP server where the clients can connect to a new FTP server, we are looking for a **Client gateway migration coordinator** (80% coordination, 20% technical)

Mission

- Contact relevant IT teams to implement migration steps and required configurations
- Contact client and support them for QA testing
- Plan production migration with client and IT teams
- Report progress in migration tracker
- Follow-up with customers/client relationship managers/IT teams on implementation and issue resolution
- Assist teams for issues investigations

Skills

Must-have:

- Strong English verbal and written communication skills
- Ability to speak the technical language of the software developers and IT infrastructure system administrators

Nice-to-have:

- IT Support experience
- PMI/PMP or Prince 2 certification
- Mutual Funds Business Knowledge
- Good knowledge of application migration from legacy to new infrastructure (replatforming, rehosting)
- IT Infrastructure knowledge (Unix/AIX/Linux, Network TCP/IP Routers, Firewalls, Load Balancers, Oracle/MS SQL/Sybase Databases, MQ/Websphere Application Server middlewares, SAN/NAS storage technologies)

Soft Skills:

- Good relationship skills to partner with IT Application development and support teams, Client Relationship Managers, Customers
- Influence and leadership skills to drive the team and partners to reach outcomes
